Student: Mgr. Tereza Klopalová

Supervisor: Prof. PhDr. Jan Novák, Ph.D.

Consultant (if assigned): ---

Topic of dissertation: The aspects of inclusion of persons with autism spectrum disorders in elementary schools in the context of the Covid-19 pandemic

Form of study: Full-time

Beginning of study (academic year): 2022/2023

Expected completion of study (academic year): 2026/2027

DISSERTATION WORK PROCEDURE
<i>(Describe in detail the procedure of the activities on the dissertation in the respective academic year)</i>
In the first year of study, I conducted a literature search on the topic of my dissertation, both Czech and international. As part of the methodology course I took at the Medical College, I studied a number of papers on research methods. In collaboration with my supervisor and based on intensive study in the mentioned areas, I gradually refined my research intent and planned the research study which I intend to carry out in the following year. On the basis of my study, I prepared an extended summary of my dissertation which I subsequently defended.

Institute. I highly appreciate Mgr. Klopalová's involvement in SGS IGA. The doctoral student managed to study the relevant literature for her dissertation and to prepare and defend an extended summary of her dissertation. In the following period, it is desirable for Mgr. Klopalová to expand her theoretical knowledge base by further intensive study. The doctoral student submits a written application for a course change and I ask the Subject Area Board to approve the application.

Fulfilment of the ISP\*\* by the doctoral student in the respective academic year

- a) Fulfilled without reservation.
- b) ~~Fulfilled with minor reservation.~~
- c) ~~Fulfilled with reservation.~~
- d) ~~Not fulfilled.~~

I recommend – ~~I do not recommend~~\*\* continuation in study.
